

ALEM TENA – WORLD HEALTH ////

Ethiopia is a unique African country and is one of the nations that have never been colonized. With its over 80 diverse languages and a unique script, Ethiopia is a culturally very rich country. It is an interesting fact that Ethiopia uses its own calendar. On the day of his arrival, Evangelist Schott was told that he was seven years younger in Ethiopia, because in Ethiopia it is the year 2009.

The Ethiopians are very friendly people and place great value on education. It remains to mention that Ethiopia is the birth place of coffee, which people enjoy drinking – and they drink a lot of it.

One day later the team headed into the interior. After about three hours journey – past uncountable fields of harvested teff (millet) – the team reached the city of Alem Tena.

Translated the name means world health, and the city is located in the Rift Valley. Looking from a spiritual perspective, the area around Alem Tena is dominated by darkness. It is demonized and lots of witchcraft is practiced.

Still on the same night, Daniel preached and called the conference participants to repentance. Songs and wonders happened during the prayer time.

People experienced forgiveness of sins and many were healed. The ministry time had to be shortened though, due to the fact that Ethiopia is still in a state of emergency and a curfew is in effect, starting at 8 p.m. The team reached the hotel just in time.

The mighty work of the Holy Spirit continued on the following days. People went down under the power of the Holy Spirit. The Sunday service was the climax: The church was overcrowded. People were even standing outside the church to hear the Word of God. About 100 visitors were healed, on this day only: As Evangelist laid hands, 53 healed people came onto the stage. After praying a general prayer for healing, another about 50 people experienced healing.

Nomen est omen – that has become true for Alem Tena. In the city of world health, Jesus healed about 180 people in total, on this weekend. Thank you Jesus!

The work of the Holy Spirit continued. People came to the church even on Sunday night and Monday morning, even though no services were held. They came to get saved and to pray. That is revival! Thank you Jesus!

In order to conduct a gospel campaign in Ethiopia, next year, we need at least 20,000 Euros, and are grateful for every support (reference: Ethiopia).

Thank you!

THE END OF BOREDOM!!!!

The job of a shepherd must not have been very exciting, I imagine – tending sheep and goats 24/7. And then there were the long nights of keeping watch. At some point everybody knew all the stories that were told around the campfire. Monotony, boredom, and fatigue would set in. Additionally the shepherds of those days were people of low social status, which worsened the sentiment even more.

I see before my eyes the shepherds, sitting around the campfire, lost in thought, and poking around with their sticks in the embers – wishing everything would be different! A certain longing sets in – a longing for a better life. But everything is about to change this night!

Suddenly they are dazzled by a glaring light, that makes their campfire fade away. A visitation from the heavenly dimension! Fear and terror seizes them. Their breath is taken away! For a moment, they wish back the previous monotony. Then the all-clear: Do not be afraid. I bring you good news that will cause great joy! God's messenger does not bring judgement but joy! Hard to believe – joy! The reason for joy? Jesus the savior has come! Boredom is a thing of the past.

Serious piety, boring church services, and sad faces are certain indications for the absence of the Kingdom of God. God is a God of joy, and so his kingdom is a kingdom of joy (Romans 14:17). He breaks into our world in order to surprise us with ecstatic joy. Jesus is the reason for joy, and his gospel is the best joyful message there is for all mankind.

Again and again, I experience how the gospel changes people and then – then there is joy written all over their faces. The joy of salvation from eternal condemnation, the joy of deliverance and healing. Joy!

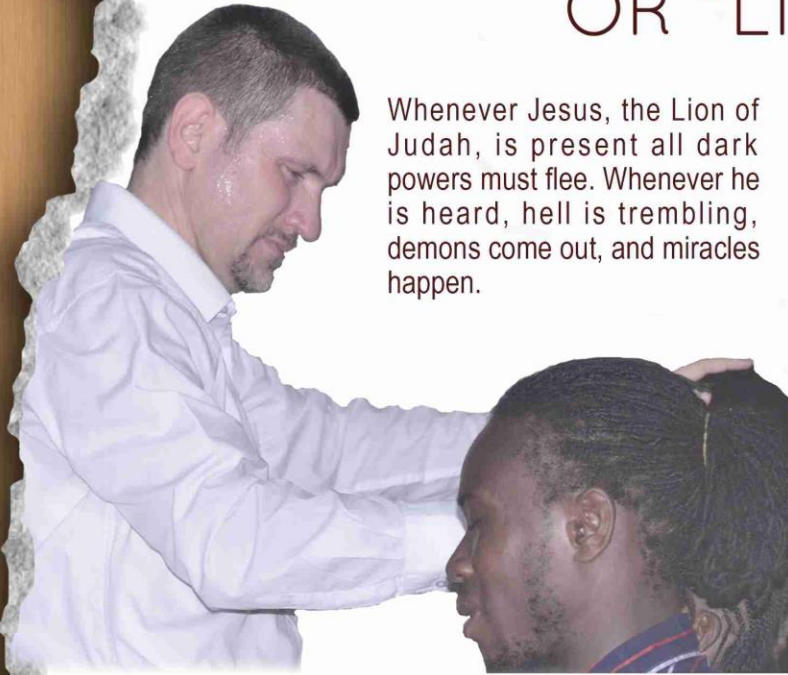

Your prayers and your financial support help us to spread the message of joy. Thank you for your valuable support!

Merry Christmas!

Daniel Schott

SIERRA LEONE – OR “LION MOUNTAIN”!!!!

Whenever Jesus, the Lion of Judah, is present all dark powers must flee. Whenever he is heard, hell is trembling, demons come out, and miracles happen.

The people who came to the evening meetings in Freetown opened their hearts for the full gospel. They experienced forgiveness of their sins, deliverance from demonic powers, and healing. People with diseases of many years testified about their healings. Far above 100 people were healed on this weekend in September. Thank you Jesus!

The Sunday service was particularly powerful. Evangelist Schott preached about the glory of God and how one could experience it in one's own life. As the glory of God moved into the service, the demons could not stand it any longer. There were wild manifestations and then deliverances. Even children were affected. The lion of Judah kept the victory in the land of the “Lion Mountain!”

MALAWI!!!!

It was the first time for Daniel to visit Malawi in East Africa. The purpose of the journey was a pastors conference, but at the same time the Evangelist wanted to evaluate and discuss the possibility of a gospel campaign, next year. A suitable field was located and inspected. Now it needs sufficient funding, in order to conduct a gospel campaign in 2017. We would appreciate your donations for this cause (reference: Malawi).

On Friday, Daniel preached from 2 Chronicles 7:14 on the topic of revival. When **drought**, **locusts**, and **sickness** destroy the land, the church must rise to the occasion. The

Evangelist challenged the pastors and bishops to take their rightful positions and to take responsibility for change in the country.

After my arrival in Malawi, I found out that Malawi was suffering from a drought. I knew the scripture had to be applied directly this time. Malawi needed rain. The Lord answered our prayers and on Sunday it rained some. My time in Malawi had a prophetic dimension. It rained. I actually ate locusts and about 50 people were healed on Sunday. We can take God at His word!

Daniel Schott

TUMOR SHRUNK!!!!

I am a thirty years old mother and have a husband and two wonderful children. Our daughter is four years old and our son six. Let me call them Lu and Bienie. When our daughter was one and a half years old, we noticed a trembling of the eyes. It started from one day to the next. After a MRI scan it turned out that our little Bienie had a supposedly slowly growing tumor of 5.7cm size. The doctors advised us to wait with the chemo. However, after an examination in March they found a second tumor in the brain.

I was just mad at God, because I could not understand how he could do that to me. We received our plan for the next 85 weeks, which were probably the worst weeks of our lives. My anger at God subsided, because I understood that God does not give us diseases. I began to fight in prayer, together with God, for the sickness to vanish.

The doctors said, the tumor would affect the eyes much, because it had entangled the optic nerves, which could lead to blindness. My husband and I were at countless miracle services. He would come along, although he did not believe. After much prayer and countless chemos it was time for the next MRI. The tumor had shrunk to 2.4 cm at the end of the 85 chemos, which left the doctors very impressed.

In December 2015 we had the last chemo. My question on whether the tumor would further go back without chemo was answered in the negatives. But I believed wholeheartedly that it would continue to go back. However, at first nothing happened. The last three MRIs always showed the same. But I continued with God... No matter who I talked to, I would always say: My daughter will be healed. I know it. God does not leave us alone. I was smiled at, but I did not care. I stood by it, that God still works miracles today.

On one Sunday my parents wanted me to go to a healing service in Dortmund. “Oh mom,” I said, “we have already been there once. I don't want to go there again.” “But Daniel Schott is there!” she said. – “Daniel Schott – I don't know him.” I still went, in a bad mood, and allowed Bienie to be prayed for. She got so hot that I almost had to take off her clothes. I had the feeling, Daniel Schott prayed like a warrior. I was touched and went home. On the way home in the car my darling was still sweating a lot. The Holy Spirit was moving and working, my mother told me.

Our next MRI appointment was on Tuesday. Next to the stretcher, I prayed up and down all Bible verses connected to healing. I sang in tongues for my sleeping daughter undergoing the MRI.

We waited for the result for one week. Then the doctor called. The tumor had shrunk and only remains can be seen. I cried for joy, fell on my knees and just thanked my loving father!!! I'll never forget this moment. Finally there is progress.

I thank Daniel Schott for his prayer and his ministry, and I am grateful that God had sent us to him. God is so great and I am happy to be his daughter. He holds us in his hands in every crisis of our life, and that is the most wonderful feeling that one can have. Much love and God's blessings from a mother who had always believed in the miracle of God.

(Anonymous, Dortmund, October 2016)

JESUS, PIZZA, AND MAFIA!!!!

What connection is there between these three? Naples! In August the time had come. Evangelist Schott had been invited again to preach the gospel in Naples – the birthplace of pizza. The gospel meeting was organized by a church and took place in the worst Mafia area of Naples. The city district Scampia is known for the drug trade organized by the Comorra.

On one of the nights, a Mafia boss got saved. God also healed his heel and knee. Thank you Jesus! The following day he came to Daniel to share what had happened. His problem with the heel had been caused by diabetes. Up to the time of the miracle, he was limping and had to expect an amputation of the foot, as the sickness progressed. But Jesus healed him!

Later it was revealed, that even this Mafia boss had caused troubles for the organizers of the tent revival. Still he visited the gospel meetings. The Lord softened his heart, and eventually he decided to follow Jesus. A man with a heart of steel was crying as he was giving his life to Jesus. Hallelujah! The gospel is the power of God!

Of particular interest was the healing of a back problem of a physiotherapist in Naples. He and his wife came to Daniel to share about the healing. The physiotherapist explained that it would have taken a year of physiotherapy in order to fix the back problem. – Not with Jesus!

WAKE UP!!!!

It was a refreshing night, on November 4th – multicultural and interdenominational, as always. Christians from various regions gathered to experience God at the 35th revival service in Minden. The strong resistance before the meeting already suggested that it would be a blessed night.

The diverse musical pre-program was invigorating and the presence of God was already felt during the worship time. The visiting pastors joined in prayer for the prayer requests and also prayed for the region. Evangelist Schott preached on: "Why am I not healed?" (CD in German available through the office.) Many false arguments against healing were refuted and thus the way for healing prepared.

This night many visitors experienced the forgiveness of their sins and 25 persons were healed. Amongst them was a sister who had been deaf on one ear since over 20 years. Thank you Jesus! All the detail work of the workers and helpers proved to be worthwhile!

GROWTH!!!!

A newsletter can only give a small glimpse of the work of GEN. Much work happens in the background and is handled by faithful brothers and sister, for example the office work, media production, TV work, and practical works in and around the GEN-Center. GEN is growing and in need of more workers in the areas mentioned above, and other areas. Should you be interested in working with us, we are looking forward for you to contact us.

Events in Uganda have been planned already for January 2017. Also gospel campaigns in Malawi and Ethiopia are envisioned (detailed information on request). In between gospel campaigns Evangelist Schott serves in various churches in Germany and abroad. People are being changed forever. Signs and wonders confirm the gospel – even in Germany!

The continuous growth of the ministry also means an increase of expenses. Help us to continue and to expand this work. We thank you for your generous support!
